

# Coated

Look at your tongue.  
Is it coated?

Then you have a bad taste in your mouth every morning. Your appetite is poor, and food distresses you. You have frequent headaches and are often dizzy. Your stomach is weak, and your bowels are always constipated.

There's an old reliable cure:

**Ayers Pills**  
Don't take a cathartic dose and then stop. Better take a laxative dose each night, just enough to cause one good free movement the day following.

You feel better the very next day. Your appetite returns, your dyspepsia is cured, your headaches pass away, your tongue clears up, your liver acts well, and your bowels no longer give you trouble.

Price, 25 cents. All druggists.

"I have taken Ayer's Pills for 25 years, and I can assure you they are the best made. No pills do me more good than half a box of any other kind I have ever taken."

## SITUATION AT TIEN TSIN.

Satisfaction at Washington Over  
Its Clearing Without Loss of  
Honor to Either Side.

### TRoublesome INDEMNITY QUESTION.

The United States insisted on  
negotiating the indemnity, but the Chinese  
firmly refused. But in the  
Extent of Loss of Prestige or Re-  
staining Influence.

Washington, March 23.—Although  
the situation at Tien Tsin was  
referred to as being "troublesome," the  
Chinese felt that a prolongation  
of the hostile attitude of the British  
and Russian forces might lead to  
trouble in the end, so that the news  
of the arrangement by which both  
of the powers involved in the  
incident had been without loss of  
honor, was well received here. With  
the existing locate withdrawn the  
Chinese trouble has assumed a less  
menacing aspect, and it is reported  
that the misfortunes have been able,  
leaving in abeyance the troublous  
negotiations, to make some  
headway toward a final adjustment  
of the points remaining to be adjusted  
under the articles subscribed to by  
China and the powers at Pekin.  
The indemnity question.

Further inquiry into the indemnity  
question has shown that the sum of \$200,000,000 which our government  
should believe upon the Chinese as  
a tax, represents absolutely the limit  
of Chinese ability, according to the  
officials who have been consulted.  
It is believed that the Chinese  
have informed us to the resources of China.  
The figure named does not represent  
the aggregate of the indemnities claimed.  
On the contrary, it is understood  
that these are very much larger.  
The United States lived upon  
the indemnity, and others were  
demanded to be claimed, notwithstanding  
that officials of the various  
departments are satisfied that this sum  
will only provide for the payment of  
a certain percentage of the items  
claimed, because it was felt that this  
was as much as we should claim  
proportionately of the total of \$200,000,000.

The Basis of Division.

It is not the intention to divide this  
\$200,000,000 into as many equal parts  
as there are powers, but while divid-  
ing it into eight or ten parts, to see to  
it that the Chinese receive a sum suffi-  
cient as to compensate the powers  
in accordance with the outlay they  
have been put to in suppressing the  
Boxer troubles. This government  
was willing to abate the \$25,  
000,000 claimed by the Chinese  
would reduce their claims in the same  
proportion, even to the extent of reducing  
the total estimate to \$100,000,000  
if by so doing the Chinese govern-  
ment could be relieved by having the  
tax reduced to their abilities.

We Will Meet You.

But although in grave doubt whether  
China can pay more than \$100,000,  
000 our government feels itself bound  
to secure compensation for its el-  
ements to the same extent as  
possible by other powers, and is es-  
pecially anxious to have the basis  
of the conviction that a full compensa-  
tion of our claims, or even a  
heavy reduction without correspond-  
ing action on the part of the other  
powers, would rather injure than help  
China by destroying whatever of re-  
spect she influenced the state department  
has so far been able to exert  
towards sympathetic powers.

### TO WORK FOR STATEHOOD.

A Non-Partisan Committee to  
Work in Washington for State-  
hood for New Mexico.

Santa Fe, N. M., March 23.—Gov-  
ernor Chaves, appointed by the  
territorial legislature authorizing  
the appointment of a non-partisan  
commission of 14, with the gov-  
ernor as ex-officio member, to go  
to Washington and work for state-  
hood against the International  
trans project, and appropriating \$2,000  
for the purpose.

To Finance Project.

St. Louis, March 23.—Fire, which  
broke out at eight o'clock Friday  
night in the building of the Ameri-  
can Banking mill on Twenty-first street  
near Cass Avenue, caused damage es-  
timated between \$10,000 and \$15,000,  
and resulted in the serious injury of  
two persons. The cause of the fire is  
unknown, but it is impossible to have  
originated in the enginehouse from  
the furnace.

Thoughts to J. C. Durban.

Shreveport, La., March 23.—A sum  
supposed to be J. C. Durban, wanted  
at Santa Clara, Cal., for the murder of  
six persons, and for whose capture a  
big reward has been offered, was ar-  
rested here Monday. He denies that  
he is Durban, and declared he is from  
Hinsdale, Ill.

Marshall Election Law.

Baltimore, Md., March 25.—With the  
signature of Maryland's new election  
law, which is considered to be the  
most liberal in the country, the  
experts estimate that the result  
will be the disfranchisement of 18,  
000 illiterate negroes and 30,000 literate  
republicans.

## TO FREDERICK W. RAMSDEN.

The Naval Memorial Tablet to be Set  
Up to Santiago in the Memory  
of a Good Man.

Washington, March 27.—The hand-  
some bronze tablet, to be set up by  
the navy department at Santiago, in  
memory of the late Frederick Wool-  
aston Ramsden has just been finished  
at the Washington navy yard and is  
now ready for shipment. As a consul-  
tant naval architect, Mr. Ramsden  
had rendered conspicuous aid to Rob-  
ert and his little band of heroes, by  
way of alleviating their sufferings  
during imprisonment. This work  
together with other deeds of usefulness  
deserve the highest honor.

The tablet which is about six  
inches square was designed by Mr. Robert G.  
Skerrett, of the navy department, and  
bears the following inscription:

### DOUBLE-HEADED WRECK.

Five Men Injured in a  
Wreck on the Wisconsin  
Central at St. Paul.

St. Paul, Minn., March 27.—A double  
header freight train of the Wisconsin  
Central jumped the track at the Mississ-  
ippi street bridge and five men  
were injured.

Tom Galvin, engineer, badly scalped  
and crippled.

Thomas J. Plant,  
Both engines and many of the cars  
were totally wrecked and the loss is  
heavy.

### THE WORST IN TEN YEARS.

Wild and Destructive Blizzard in  
Colorado—Many Range Cattle  
Have Perished.

Julesburg, Colo., March 27.—The bliz-  
zard that has been raging at Jules-  
burg and vicinity is the worst storm  
seen here since 1890. Many cattle  
have perished by drifting with the  
storm. Others have been smothered  
by snowdrifts, and others have  
been buried in deep drifts, each drift to  
ten feet deep, block the roads. No trains  
are coming in, and eight or ten passenger  
trains are blocked here. In  
several instances residences are completely  
surrounded by huge banks of snow.

### THE RESOURCES OF CHINA.

A Committee of the Foreign Minis-  
ters at Pekin Has Investi-  
gated the Subject.

Pekin, March 27.—The foreign minis-  
ters will not meet again until the  
committee is ready to report on  
China's resources. The committee is still  
informed by merchants, bankers and  
others on the subject.

The Australian contingent has left  
here for Taku and will sail for home  
Wednesday.

A Japanese regiment is starting for  
Japan.

### EX-CONGRESSMAN WILLARD.

Death of Hon. George Willard, Editor  
of the Battle Creek (Mich.) Journal.

Battle Creek, Mich., March 27.—Hon.  
George Willard, ex-congressman from  
Troy district, died aged 77 years,  
Tuesday morning. He had been elected  
to congress in 1878 and served four  
years. Mr. Willard also served  
six years as member of the state  
board of education and ten years as  
regent of the state university. While  
representing Michigan in congress he  
was instrumental in securing the admission  
of women at the university. Mr. Willard  
was editor of the Battle Creek Journal  
from 1860 to 1865.

GEN. FRENCH'S ROUND-UP.

A Heavy Blow to the Already Im-  
poverished Poor Com-  
munities.

Albuquerque, Monday, March 27.—Gen.  
French with Darton and Poultney  
and their columns arrived here yesterday  
having killed, wounded or captured  
100 Boers. He has also taken several  
cannon, 1,000 rifles, 1,800 wagons and  
20,000 head of beasts, cattle and sheep.

With Few Female Patrols.

Bluffton, N. Y., March 27.—The  
authorities of the Corliss State normal  
and school have made a new depart-  
ture in the appointment of women prof-  
essors who will grade the grounds  
of the school and other educational  
institutions.

All now the committee has been  
able to state definitely what the cost  
would be. Mr. Benjamin says \$1,000,000  
will cover every expense in connection  
with the building of the arch and the  
beautifying of the park surroundings.

Biliousness and constipation are seen out of which spring many of the diseases that all afflict the human body. Some physicians would demand the immediate removal of this condition before developing something more troublesome. This is not so. POLY'S BITTERS is a reliable cure for constipation and disorders of similar character. It is thoroughly emulsified in oil and applied to the bowel channels and regulates the liver and stomach, hence it performs a radical cure. Sold by St. Bernard Drug Store.

**Bordley.**

Bordley, Ky., March 25.—Whiskey stills of Sturgis have reached a climax. In preparing for the coming election for prohibiting the sale of whiskey, it was found that in the original charter of Sturgis granted in 1891, there was a clause which prohibited the sale of intoxicants within one mile of the corporate limits of the place. The case was presented and argued before Judge Dorsey and he rendered a decision that the charter was valid and that the city council had no right to grant saloon license. An appeal is now being taken by the defendant. In this second trial, it is believed saloons will be closed. Intoxicants can still be sold in the drug stores. The question at issue in the coming election provides for prohibiting the sale of intoxicating beverages in drug stores as well as saloons. The likelihood is that whiskey will be obliterated from the disgraced city of Sturgis.

## THE STORM KING'S WORK.

**A Terrific Tornado Plows a Pathway Through Birmingham, Alabama.**

**TWENTY FIVE DEATHS ARE REPORTED.**

**Scores of Persons Injured, Many Fatally—Avondale, Irondale, Bessemer and Other Towns Also Suffered to Considerable Extent—Fierce Freaks of the Storm.**

BIRMINGHAM, Ala., March 25.—Shortly before ten o'clock this morning a fearful tornado swept over the southern part of this city. The number of killed is estimated to-night at 25, of whom five are white. The destruction was so great it is believed to have cost a million dollars. Eighteen bodies had been recovered up to 7 p.m., and scores of injured have been removed to the hospital.

Among those dead are Dr. G. Chapman, of the firm of Tally & Chapman, who conduct a private infirmary in this city, and the wife and infant child of Robert J. Lowe, chairman of the democratic state executive committee. Following is the list of the scattered dead:

Dr. G. C. Chapman.

Mrs. Robt. J. Lowe.

Infant child of Mrs. Lowe.

J. Alexander.

Eliza daughter of B. B. Hudson.

F. M. Alexander, collector, Union Miners Association of Mobile.

Carrie Hudson, colored.

Maggie Blevins, colored.

Mrs. W. H. Thomas.

Mrs. J. McLaughlin.

Mrs. J. Ferguson.

Mrs. Mylum.

Carrie Ellin, colored.

The seriously injured, so far reported, number 30.

The storm struck the city in the extreme southern corner and plowed its way eastward, leaving a path 150 feet wide through the entire southern section, extending from Bessemer to Pratt City. It then made its way to the east, and continued its course until its fury was spent in the mountains beyond Irondale, a small town, six miles east of the city.

The storm struck the city in the extreme southern corner and plowed its way eastward, leaving a path 150 feet wide through the entire southern section, extending from Bessemer to Pratt City. It then made its way to the east, and continued its course until its fury was spent in the mountains beyond Irondale, a small town, six miles east of the city.

The velocity of the wind suddenly began to increase, and out of the overcast sky the dreaded funnel-shaped cloud made its appearance. Hugging close to the earth it came down upon the city. The attitude of the tornado was not more than 75 feet.

**Stones Twisted Out of the Ground.** The negro shanties and cottages in the lowlands were the principal sufferers. The larger residences on the hilltops were spared, however. The large trees on the hillside of St. Vincent's hospital were torn up by the roots and large masses of stone were twisted out of the ground and broken and scattered over the driveways leading to the institution.

On Frankfort Hill just south of Avondale, a number of houses were seriously injured and many houses badly damaged. The residence of Miller Harbin was blown down and Mr. Harbin, his child and other members of the family were safe. Captain Sheldon and Mrs. J. H. Holden were also hurt and a number of other persons suffered slight injuries. Twelve houses were demolished and trees, out-houses and fences were leveled.

At Irondale the tornado again repeated its work of destruction. Houses and fences were leveled to the ground, and up to this writing several bodies had been recovered. A number of injured persons and a big property loss are reported.

At Bessemer the tornado again repeated its work of destruction. Houses and fences were leveled to the ground, and up to this writing several bodies had been recovered. A number of injured persons and a big property loss are reported.

At Pratt City, Bessey, North Birmingham and other suburban towns were visited by the storm, and in each much destruction was wrought, but no loss of life is reported.

Many houses were demolished at Pratt City, including a number of churches.

At Powderly there was also much damage and destruction, and at Cleveland Mrs. George Watt was struck by lightning and will probably die.

**Important Naval Changes.**

Washington, March 26.—Two important naval changes were announced at the navy department yesterday.

Capt. F. W. Dickens has been assigned to the command of the cruiser Brooklyn, on the Asiatic station, replacing Capt. C. M. Thomas, transferred to the command of the Oregon.

**Lost, With All on Board.**

Kiel, March 26.—The oceanic German steamer Brahma, from Scotland for New York, was reported missing.

**Charlotte Mary Yonge Dead.**

London, March 26.—Charlotte Mary Yonge, the author, died Sunday in Winchester. She was born August 11, 1828.

### EXECUTIVE APPOINTMENTS.

U.S. Representative Rodenburg, of Illinois, and E. L. Allen, of Auburn, N.Y., both gather a place.

Washington, March 26.—The president has appointed ex-Representative W. A. Rodenburg, of Illinois, a member of the civil service commission, to succeed the late Mark S. Brewer, and E. L. Allen of Auburn, N.Y., commissioner of patents, to succeed Commissioner Duell, resigned.

The selection of Mr. Rodenburg removes one of the factors which has delayed the appointment of the St. Louis postmaster. Mr. Rodenburg's friends present urged especially for one of these places. It is generally believed that Mr. Rodenburg's candidacy clashed directly with that of Prof. Northrup of Minnesota. The announcement of the nomination is now expected within a few days.

### JUMPED FROM EADS BRIDGE.

Death of Robert Hayes, at St. Louis—Old Recruit Despondent Over Illness.

St. Louis, March 26.—While a dependent monk, brought about by a prolonged illness, Robert Hayes, 61 years old, who lived with his niece Mrs. Emma Riley, committed suicide, Sunday afternoon, by jumping from the Eads bridge into the river.

Hires were discovered floating downstream, in the water was but three feet deep where he struck, but he suffered internal injuries which proved fatal. The man was alive, but unconscious, when taken from the water, but he died in the ambulance while being conveyed to the city dispensary.

## LOCOMOTIVE BLASTS.

Evansville has another violent fit of jealousy on. This time it is caused by the fact that Henderson has arranged with the Louisville & Nashville Company, to have a union depot at that point, and whenever Evansville discovers that Henderson is taking a step forward, then it is they think of making improvements. A few years ago when Henderson was fortunate enough to assist at best it could, if only in a little way, towards the construction of the new bridge over the Ohio River, Evansville got out a resolution of the opening of the new bridge, using the words: "The Henderson bridge near Evansville," which showed that even if they failed to have secured the bridge at that point they were going to lay some claim to it now. In order to make the people of Henderson feel as bad as possible they have built in their own mind and on paper only, a two or three million dollar union depot, at that place. The L. & N. company has met with but little encouragement at that place, when heretofore they wanted to make improvements, and it is not likely that so great an expenditure is now contemplated by them and other companies entering there.

Rumor says our old friend Supervisor Sullivan has resigned his position with the Atlanta Western, and will soon go with the Southern Railroad. His ability as a railroad man is recognized by all, and therefore his services are in demand.

The sensation railroad circles the past week or two, has been the one in which has taken the L. & N. railroad away and the outsider is wondering what was the cause of the great rise. The general opinion seems to be that some inside deals of which the public in general know nothing about and which is of great importance to the system, has taken place, and the knowing ones have taken advantage of the tip, and therefore bought the stock liberally, and an demand has caused rise in the market.

SICK BENEFITS.

The meetings of the Commandery are now in full swing, and are awaiting other opportunities for the formation of useful and pleasant friendships, give scope for parliamentary and oratorical abilities, and enable members to contribute greatly to a knowledge of men and affairs. One who avails himself of the social opportunities offered by a commandery receives an unusual return for the trifling sum to which his annual dues amount.

## Golden Cross.

A Fraternal Beneficial Order, Organized July 4, 1876.

The First Order to Accept a Graded Assessment Rate—The First Order to Admit Women to Equal Privileges.

Annual Premiums, \$2,000. Life Insurance, \$5,000.

MEMBERSHIP.

The Order is restricted to white persons between the ages of 16 and 55, of good character, socially acceptable, and of sound health.

PRINCIPLES OF THE ORDER.

These include a belief in a Supreme Being, the Right of the Individual, Mutual Aid, and Integrity. Members are required to pledge themselves not to use spirituous or male liquors, except for medicinal or scientific purposes.

CHARACTER OF THE ORDER.

The Order is composed of about 100,000 delegates constituting the Fraternal Congress; in other words, it ranks with the best orders in our country, and commands very favorable consideration among all leading men. It occupies high moral ground. It admits women as freely as men; it is the first order to admit women to equal rights. The principles of the Order in the eyes of men are excellent. They have also proved themselves to be sound risks and efficient workers for the order.

PERSONS DESIRING TO JOIN.

The Order is organized on July 15, 1876, in Knoxville, Tennessee. It is licensed to do business by the Insurance departments of the several States, and has a large number of agents throughout the country.

On account of its restricted principles its growth has been less rapid than that of other orders. While it has not been less rapid than that of other orders, it has been steady and uniform; it now has over 30,000 members, and expects to reach 100,000 by the end of the year, up to July 1, 1900, the vast sum of more than \$30,000,000. During 1899 the members paid in more than \$1,550 on each working day of the year. An order with a record like this has no apology to make.

COST OF JOINING.

Medical Examination not to exceed \$10 (ordinarily).....\$1.50  
Initiation Fee.....\$3.00  
Benefit Certificate.....\$1.50  
Quarterly Dues, fixed by the Order.....\$1.50  
And an advance assessment according to age and rate, as shown by table annexed must be paid at the time of initiation.

ASSESSMENTS.

Are monthly, due and payable on the 1st of each month, but members are allowed until midnight of the last day of the month to which to pay without loss of good standing.

EMERGENCY FUND.

The Assessment Table is based on the cost of living in the city, and is used as the only safe basis for Fraternal orders. It calls for a trifling increase over the actual cost of protection to the community, which is interest and principal, if need be, may be used to keep the assessments from going above 12 a year. When the assessments are paid in full, the fund is available for the use of the community.

SOCIAL PRIVILEGES.

The meetings of the Commandery are awaiting other opportunities for the formation of useful and pleasant friendships, give scope for parliamentary and oratorical abilities, and enable members to contribute greatly to a knowledge of men and affairs. One who avails himself of the social opportunities offered by a commandery receives an unusual return for the trifling sum to which his annual dues amount.

SICK BENEFITS.

The Commandery is based on the principle that it is not necessary to pay health insurance premiums for 24 years to obtain a full payment of benefits. The Commandery has been operated successfully for nearly a quarter of a century. Is it not deplorable that such a commandery should not exist?

WHY SHOULD ONE DISTRUST THE FUTURE OF FRATERNAL ORDERS?

There is no essential difference between an insurance company and a Fraternal Order. As a matter of fact both are operated on the assessment plan; the only difference is that the insurance company insures a number of individuals in a given period of time, while the Fraternal Order insures a number of individuals in a given period of time.

## THE SUNDAY SCHOOL.

LESSON XIII, FIRST QUARTER, INTERNATIONAL SERIES, MARCH 31.

A Comprehensive Review of the Quarterly Lessons—Golden Text, Issn. 101, \$2—Concordance Prepared by the Rev. W. Stevens.

[Copyright, 1901, by the Sunday School Association.]

Lesson XII.—Jesus and the Herdsmen (Matt. xxvi, 1-10). Golden Text, "She hath done what she could" (Mark xiv, 9). The approval of Christ is everything. Let these and faults who will be they even apostles, we need not mind if only He is pleased. The parable of the lost sheep to II Cor. v, 11; II Tim. ii, 15. May our attitude be ever at His feet receiving His word (Luke x, 30), for see how many of Peter's companions did even Peter and John did.

Lesson XI.—The triumphal entry (Matt. xxiii, 1-13). Golden Text, "Behold I send unto you the prophets in the name of the Lord" (Matt. xxii, 9). In this lesson, fulfilled the prophecy in Zech. ix, 9, that "King will come in judgment upon all and cast down the high ones." It is the other prophecy of Zechariah, and every prophecy concerning Him just as literally. He wept over Jerusalem because of the sins of the people, and the woes that would therefore come upon her. Unfeeling is ever His great gift.

Lesson X.—The Great Commission (Matt. xxviii, 16-20). Golden Text, "We would see Jesus" (John xii, 42).

Whenever we read the word of God or hear it read, we think in the name of a text should be on our hearts, etc. Paul in his Greek can see His with pride unless they see His as the corn of wheat dying for them, and then seeing His as one who has died for us, we say, "Yes, Lord, we must glorify God in loving not our lives unto death" (Rev. xii, 11).

Lesson IX.—The Parable of the Pharaohs (Matt. xxv, 24-40). Golden Text, "What thing ye of Christ?" (Matt. xxv, 42).

The great question is not one of judgment, but one concerning our co-inhabitants, but who does not heartily love Christ? What is my relation to Him? Have I accepted Him as my own personal Savior? Do I love Him as my Lord and Master? Then am I heartily one with Him in looking for the glory that is awaiting His son of David, King of Kings, King of kings and Lord of lords.

Lesson V.—Parable of the talents (Matt. xxv, 14-30). Golden Text, "For then every one of us shall give account of himself to God" (Rom. xiv, 12). While salvation is a matter of grace, the free gift of God, we must do our best to serve or deserve (Rom. iii, 21; iv, 5; Eph. ii, 8; Titus vi, 10) those are good works expected of us who have received the fruit to be borne to His glory, and for this we total appear before the judgment seat of Christ to give account of our stewardship, for we are now returning to our work (Eph. ii, 10; Rev. xxi, 12).

Lesson VII.—The Lord's Supper (Matt. xxvi, 17-20). Golden Text, "This is my body which is given for you" (Luke xxii, 19).

Hayne kept the last supper, Israel's greatest annual feast—consecrating their deliverance from Egypt, and pointing forward to the church. He instructed the supper to take the place of the Passover for His disciples till His soul came again (Rom. xi, 26); the last supper was His last supper, into which His blood, by which—i. e., by His sacrifice for us—we receive. His have eternal life.

Lesson VIII.—The Last Judgment (Matt. xxv, 30-46). Golden Text, "Not My will, but Thine be done" (Luke xxi, 42).

We should consider and pray to know the time when the day which we may never live in this life fully understand. Seeing even Peter, James and John heavy with sleep at a time and place when the world could not sleep could it not watch with Me one hour?" and also the admonition in Rom. xii, 14; it is better to pray earnestly to be allowed to take the last supper and live as He did in the will of God.

Lesson X.—Jesus betrayed (John xix, 14). Golden Text, "The Son of Man cometh not but on a manger" (Matt. xxvii, 24).

As we see Jesus gleaning Himself to be bound and led as the people did, and as we see His words, "I am come to give, not to receive" (John xii, 22; Matt. x, 42), we realize that the principles of life he had been writing, but with more privilege and opportunity than the world's service. Truly "the heart of the world is dead," and dead deep in hell (John xix, 41). We should not look for a dead and wicked heart in others, but consider that we might be lost and dead lost for the grace of God.

Lesson X.—Jesus and Calaphas (Matt. xxvii, 57-62). Golden Text, "Thou art the Christ, the Son of the living God" (Matt. xvi, 16).

As we see Jesus gleaning Himself to be bound and led as the people did, and as we see His words, "I am come to give, not to receive" (John xii, 22; Matt. x, 42), we realize that the principles of life he had been writing, but with more privilege and opportunity than the world's service. Truly "the heart of the world is dead," and dead deep in hell (John xix, 41). We should not look for a dead and wicked heart in others, but consider that we might be lost and dead lost for the grace of God.

Lesson XI.—Jesus crucified and buried (Luke xxiii, 25-33). Golden Text, "Christ died for our sins according to the scriptures" (I Cor. xv, 3). We cannot understand the meaning of the cross of the crucifixion and those six hours on the cross when He bore our sins in His own body, but we can believe that the Son of God did it for us, and we can say, "He and we can say from the heart, "His own self bare my sins in His own body on the tree" (Gal. iii, 20; Col. ii, 24), and nothing else can truly suffice for grace to enable us to say as He walked in meekness and lowliness that He may be glorified in me."
